Tim Berners-Lee's proposal

In March 1989, Tim Berners-Lee submitted a proposal for an information management system to his boss, Mike Sendall. *'Vague, but exciting'*, were the words that Sendall wrote on the proposal.

The screenshot displays the Chrome DevTools Network tab. At the top, the 'Filter' bar is set to 'All'. Below it, the 'Has blocked cookies' and 'Blocked Requests' checkboxes are visible. The main area shows a waterfall chart with a timeline from 0 to 800 ms. A red vertical line marks the 'DOMContentLoaded' event at approximately 400 ms. Below the chart is a table of network requests.

At the bottom of the DevTools window, a summary bar shows: 15 requests, 1.8 kB transferred, 158 kB resources, Finish: 657 ms, and DOMContentLoaded: 384 ms.
